

H POLESY & CO PTY LTD – COMPANY PROFILE

Date: 2 January 2015

MARKET LEADERS IN PRODUCT QUALITY AND SERVICE EXCELLENCE

H Polesy & Co Pty Ltd has been in operation for over 60 years, and we are leading suppliers of commercial and industrial textile and packaging products to all parts of Australia and throughout the Asia-Pacific Region.

We stock a comprehensive range of quality commercial and industrial textile and packaging products and have strategically located office and warehouse facilities throughout Australia in order to meet the needs of our customers in a timely and efficient manner – currently over 96% of all customer orders are dispatched within 48 hours of receipt.

Our goals are to provide our customers with quality products and reliable service and support, and to become the preferred supplier of quality commercial and industrial textile and packaging products throughout Australia and the Asia-Pacific Region.

H Polesy & Co Pty Ltd is a third-generation Australian owned and operated business. Established in 1950 by Herbert Polesy as a business trading in hessian and jute bags in Sydney, the Company was incorporated in 1967 under the leadership of Herbert's son, Martin Polesy. In 1985, Martin's son, Greg Polesy, assumed control of the business - a position he occupies to this day.

We have grown and expanded by constantly seeking new markets and researching new commercial and industrial textile and packaging products.

We operate as two distinct product divisions:

Polesy Commercial trades in commercial textiles and bedding, and any associated products required for the accommodation of guests, staff, contractors or residents;

Polesy Packaging & Industrial trades in packaging, industrial textiles and carpet backing.

We employ personnel with extensive industry experience in each of these product divisions.

We are accredited to a number of ISO international management standards: Quality – AS/NZS ISO 9001:2008, Occupational Health & Safety – AS/NZS 4801:2001 and Environment AS/NZS ISO 14001:2004. We have also entered into long term strategic alliances with ISO accredited manufacturers, ensuring the quality and continuity of supply of the products that we offer to our customers.

We undertake a program of rigorous testing of our commercial textile products in NATA (National Association of Testing Authorities) accredited facilities, and our products meet or exceed all relevant Australian Standards.

We believe our future success relies upon consistently delivering products and service of the highest quality in a timely and efficient manner so as to enhance the operations of our customers.
